## HOME CLEANING: GOING GREEN BY LEARNING SOME EARTHFRIENDLY HOME CLEANING SOLUTION (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Cleaning your home can be quite a chore, but thankfully, it is now possible for you to choose from a myriad of commercial cleaning products designed to make the task a whole lot easier. However, if you check the labels of the products that you use to clean your house, you will find that most, if not all of them, contain a host of hazardous chemicals that are not only dangerous to your health but can also wreak havoc on the environment if you do not dispose them correctly. With that, you should do your own small part by changing the way you clean your home. In this book, you will learn all there is to know about eco-friendly home cleaning solutions. First, you will learn what it is all about. The next parts of this book will give you information on how you can make your own green cleaning products from things that you can find in your kitchen cupboard. You will realize that green cleaning solutions are as effective in keeping your house spick and span as commercial cleaning products. In addition, they are also much cheaper. More importantly, these products do not harm the environment. By the end of this book, I hope that you will realize...
