If the door is intended to fit closely, leather strips two inches wide should be nailed around the frame of the doorway, then as the door closes it presses tightly against these strips. A Swinging Door For A Piggery.--The illustration, figure 124, is of a swinging door for a piggery, which is intended to be used together in connection with a feed trough. The engraving shows a portion of the front wall, or partition of the pen. The door is hung upon hickory pins set into the frame, one upon each side. It may be easily swung back, so as to permit access to the trough for pouring food into it, and...
