Introductory Geography in Readings and Recitations (Classic Reprint)

By William Swinton

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Introductory Geography in Readings and Recitations This book forms an introduction to the author s Grammar School Geography, and the two books furnish a complete course of geographical study for common schools. The plan of this Introductory is similar to that which has met wide approval in the author s Elementary, or Brief Course; that is, it combines reading-lessons (to enliven and stimulate) with recitation-lessons (to emphasize and fasten). By its moderate size, simple style, and close relation of matter read to matter recited, it is suited to the capacity of beginners, while the text is so graded that the Introductory connects with the Grammar School Geography without the need of any intermediate manual.
