Reviews

I actually started off reading this ebook. It can be full of knowledge and wisdom I discovered this pdf from my i and dad suggested this pdf to understand.

(Marilyne Haag)

AN ELEMENTARY MANUAL OF STATISTICS

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.

The Yorkshire Observer says: We have here an invaluable Text-Book in an extremely useful series. An adequate first course for students arrayed with all Mr. Bowley's well-known clearness and skill. The Economist says: Mr. Bowley's book provides a practical and clear introduction to the subject, in which the results of much knowledge are admirably arranged in a small space. The Lancet says: It deals in masterly style with some of the more difficult problems that perplex the beginner. Publications of the American Statistical Association says: Mr. Bowley's book differs from his well-known Elements of Statistics, not only in its greatly diminished mathematical apparatus, but also in its different purpose and scope. It may be described as a handbook of statistical criticism. The first part deals with the elementary statistical processes-averaging, tabulation, the use of diagrams and the like, but with special emphasis throughout upon the necessity of recognizing and stating the limitations of the accuracy of the data used and of the processes themselves. The second part is a survey of the more important classes of English official statistics. How the statistics are gathered, what they actually mean, their inherent limitations and the kinds of inferences that safely may be based on them are all stated with clearness and precision and with pertinent concrete illustrations. The book may not be enough to serve as a formal text-book, but it is a good book to put into the hands of students or of others who are entering upon their statistical apprenticeship. Some of the fundamental criticisms of English statistics should be useful to all statisticians. We greatly need a book dealing in similar fashion with...
