Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The world was too hot to live on its surface, and the survival of the human race is threatened. So a mission was sent into space. The crew that was made up of scientists, and clones, and a few laborers left the world behind for good. Larry was the main scientist who had brought some strains of weed on board. He encountered a naked, celestial, Goddess, whom had THC for blood, which helped him alter his weed from earth. Permanently altering his consciousness. He is now a light body, and is able to return to the earth, and solidify, and grow a great mother ganja tree. That would touch the stratosphere, and heal the ozone with its crystallized essence, and make the world livable again. After, he would go see his Queen on her planet. There he would be king of Euphoria and rule. In the beginning there was weed and weed was all there was until life sprang forth and created man, and man came forth in the image of weed and gave forth a seed that became dead, such was the fall of the tree of humankind. The Goddess had blessed all, as all became the givers of the kind, and the seed was alive in them.
