Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Path of Life The purpose of this compilation is to set forth the main features of Swedenborg s doctrinal teachings in his own language as completely and yet as briefly as is consistent with clearness and accuracy. The reference given at the end of each passage will enable the reader to find readily, when he so desires, the completer statement and its context. (For meaning of letter references, see page vii.) The central and dominant theme of all of Swedenborg s religious works is the doctrine of life, of the Divine life, the Divine Human Life and the finite human life, in all of its spiritual and eternal aspects; and it will be quickly seen that this general truth has been the determining factor both in the selection and in the arrangement of this little volume. In many of the passages more or less condensation has been necessary, but great care has been taken not to modify in any way the meaning of the statements. It is hoped that the work will be helpful in giving to readers of Swedenborg, and especially new readers, that general view of his teachings which furnishes so helpful an introduction to more careful and specific studies.
