

Action Plan for Performance Based Seismic Design (Fema 349) (Paperback)

Filesize: 9.46 MB

Reviews

It is really an incredible ebook that we have actually go through. I actually have go through and i also am sure that i am going to likely to read again again in the foreseeable future. Your way of life period will be convert the instant you complete reading this article pdf.

ACTION PLAN FOR PERFORMANCE BASED SEISMIC DESIGN (FEMA 349) (PAPERBACK)

To get **Action Plan for Performance Based Seismic Design (Fema 349) (Paperback)** PDF, you should follow the button listed below and save the document or gain access to other information that are highly relevant to ACTION PLAN FOR PERFORMANCE BASED SEISMIC DESIGN (FEMA 349) (PAPERBACK) book.

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Recent decades have seen a dramatic earthquake related losses. In the past ten years estimated losses were twenty times larger than in the previous 30 years combined. FEMA's expenditures related to earthquake losses have become an increasing percentage of its disaster assistance budget. Predictions are that future single earthquakes, which will inevitably occur, may result in losses of \$50-100 billion each. Losses are rising due to several factors. These include: a denser population of buildings being located in seismically active regions, an aging building stock and the increasing cost of business interruption. Nonstructural and contents damage are also large contributors to loss, especially in regions with high-technology manufacturing and health-care industries. It is this increase in losses from all hazards that has led FEMA to support actions to reduce future losses. One of these is Project Impact, an initiative to encourage loss reduction activities through partnerships at the local community level. One of the key components of Project Impact is the community's adoption and enforcement of an adequate building code. Performance Based Seismic Design (PBSD) is a methodology that provides a means to more reliably predict seismic risk in all buildings in terms more useful to building users. PBSD will benefit nearly all building users. The PBSD methodology will be used by code writers to develop building codes that more accurately and consistently reflect the minimum standards desired by the community. A performance based design option in the code will facilitate design of buildings to higher standards and will allow rapid implementation of innovative technology. When performance levels are tied to probable losses in a reliability framework, the building design process can be tied into owner's long-term...
