Reviews

I actually started off looking over this publication. I have read through and so i am certain that i am going to likely to study again yet again later on. I am easily will get a delight of reading a written pdf.

(Ross Hermann)

A PRIMER OF TRANSFERENCE-FOCUSED PSYCHOTHERAPY FOR THE BORDERLINE PATIENT

Jason Aronson, Inc. Hardcover. Condition: New. 284 pages. Dimensions: 9.0in. x 5.9in. x 1.1in. Treating borderline patients is one of the most challenging areas in psychotherapy because of the patients extreme emotional expressions, the strain it places on the therapist, and the danger of the patient acting out and harming himself or the therapeutic relationship. Many clinicians consider this patient population difficult, if not impossible, to treat. However, in recent years dedicated experts have focused their clinical and research efforts on the borderline patient and have produced treatments that increase our success in working with borderline patients. Transference-Focused Therapy (TFP) is psychodynamic treatment designed especially for borderline patients. This book provides a concise and comprehensive introduction to TFP that will be useful both to experienced clinicians and also to students of psychotherapy. TFP has its roots in object relations and it emphasizes that the transference is the key to understanding and producing change. The patients internal world of object representations unfolds and is lived in the transference with the therapist. The therapist listens for and makes use of the relationship that is revealed through words, silence, or, as often occurs in the case of individuals with some borderline personality disorder, acting out in subtle or not-so-subtle ways. This primer offers clinicians a way to understand and then use the transference and countertransference for change in the patient. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
