*This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which it in fact modified me, altered the way in my opinion.*

I. - The Experiment of Sinking Artesian Wells Upon the Public Lands. In my last annual report to the department (November 30, 1857, ) it was stated that the expedition to continue the experiment of sinking artesian wells upon the public lands, assigned by the department to Captain John Pope, Topographical Engineers, under instructions of May 5, arrived at the former camp on the Pecos on the 2d of September, 1857, and resumed work upon the well which had been bored to the depth of eight hundred and sixty-one feet the previous year. The operations at this point were carried on for a year, when they were terminated by authority of the department, it having been considered that they had demonstrated that, with any reasonable amount of expenditure, artesian wells on the Llano Estacado, and plains of similar formation and position, are impracticable. The depth attained was one thousand and fifty feet. The work was continued during the winter, which, from its unusual severity, increased the labors and hardships of the party, exposed, as it was, in tents on the bleak plain. The difficulties encountered were far greater than had been anticipated by Captain Pope, but were constantly met with skill, zeal, and perseverance. The impracticability of carrying the boring to a greater depth with the means provided, is attributable to the incoherent nature of the soft sandstones, marls, and clays, which, throughout the whole depth of the well, fell in and...
