Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Allopathy and Homoeopathy Before the Judgement of Common Sense To mark the improvement and advancement in the various branches of medical science; to compare the present with the past; to observe the unfolding growth, maturity, and decay of medical creeds; to discern the power of those master-minds? That, far beyond the ages in which they lived fore-shadowed the forth-coming discoveries that were to make other men immortal; to sigh over the incredulity of whole races, whose blind and dogmatical adherence to the theories of some prominent physiologist or anatomist - was at once silenced by the light of a new truth, suddenly and clearly promulgated by a single mind. To do all these things, was the labor of la whole life; volumes could be written in such investigation, and still thousands of facts be left untouched and forgotten, forever buried in the chaos of medical creeds, medical truths and medical fictions. Old Physic has for several centuries past drifted in the wrong direction, striking occasionally upon a rock, but finds itself to day further off from shore than ever before. Medicine, the oldest and most important of all branches of science, has not kept Up with developments in other depart ments, but the rays of light have already deeply penetrated into the darkness of the past, fast undermining the building of the so-called Rational Medicine with all its hypothesis and traditions.
