

## Hybrid Systems IV (Lecture Notes in Computer Science)

By Anil;Sastry Nerode

Springer, 2008. Taschenbuch. Condition: Neu. Gebraucht - Sehr gut front cover kinked - ungelesen, sehr guter Zustand; Rechnung mit MwSt.; unused/unread, very good condition; - This book constitutes the thoroughly refereed post-conference documentation of the Fourth International Conference on Hybrid Systems held in Ithaca, NY, USA, in October 1996. The volume presents 19 carefully revised full papers selected from numerous submissions. Hybrid systems research focuses on modeling, design, and validation of interacting systems (plants) and computer programs (control automata). This volume is devoted to hybrid systems models, formal verification, computer simulation, goal reachability, algorithms for extracting hybrid control programs, and application models for avionics, highway traffic control, and air traffic control. 424 pp. Englisch.

### Reviews

*Certainly, this is actually the greatest job by any author. It is definitely simplified but excitement inside the 50 percent of the book. I am just easily will get a delight of studying a composed pdf.*

-- **Lelia Heidenreich**

*Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- **Sallie Wiegand**
