VCSEL-BASED OPTICAL TRAPPING SYSTEMS FOR MICROFLUIDIC APPLICATIONS

Cuvillier Verlag Mrz 2016, 2016. Taschenbuch. Condition: Neu. Neuware - Optical trapping and manipulation by laser beams offers the unique possibility to handle single micrometer-sized particles such as living cells without any mechanical contact, damage or contamination. A second hot topic in biology is microfluidics, where the examination of biological samples in channel structures with widths below 100 μm reduces the used sample volume significantly. While the combination of both techniques results in attractive lab-on-a-chip structures for particle sorting and...
