Viva Books, 2010. Hardcover. Book Condition: New. First edition. Nuclear Nonproliferation is part of the Global Issues series, which is designed to be a first-stop resource for research on the key challenges facing the world today. Each volume contains three sections, beginning with an introduction that clearly defines the issue, followed by detailed case studies of the issue's impact in the United States and several other countries or regions. The second section draws together significant U.S. and international primary source documents, and the third section gathers useful research tools—such as biographies, facts and figures, an annotated bibliography, and more. A foreword written by an expert in the field complements each volume. A chronology, glossary, and index provide additional help. Sixty years after they were first developed, nuclear weapons do not appear to be closer to extinction. While there is widespread agreement on the threat nuclear weapons pose to humanity, there is also tacit agreement on the perception that they confer prestige and power upon those who possess them. The increased efforts to limit the spread of nuclear weapons and technology reflects a fear that has haunted scientists, political analysts, generals, and politicians since the atomic age began: concern that minor...
