

Climate Change: What Everyone Needs to Know (Paperback)

By Joseph Romm

Oxford University Press, United Kingdom, 2015. Paperback. Condition: New. Language: English . Brand New Book. Climate change will have a bigger impact on humanity than the Internet has had. The last decade's spate of superstorms, wildfires, heat waves, and droughts has accelerated the public discourse on this topic and lent credence to climatologist Lonnie Thomson's 2010 statement that climate change represents a clear and present danger to civilization. In June 2015, the Pope declared that action on climate change is a moral issue. This book offers the most up-to-date examination of climate change's foundational science, its implications for our future, and the core clean energy solutions. Alongside detailed but highly accessible descriptions of what is causing climate change, this entry in the What Everyone Needs to Know series answers questions about the practical implications of this growing force on our world: * How will climate change impact you and your family in the coming decades? * What are the future implications for owners of coastal property? * Should you plan on retiring in South Florida or the U.S. Southwest or Southern Europe? * What occupations and fields of study will be most in demand in a globally...

Reviews

Definitely one of the better books we have possibly read. We have read through and I am certain that I am going to go back and study once again yet again in the foreseeable future. Once you begin to read the book, it is extremely difficult to leave it before concluding.
