Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Palestinians are always mentioned in conjunction with the conflict in the Middle East. Many nations are mentioned in various contexts, but the Palestinians are synonymous with discrimination, with deprivation, with oppression, with genocide, with military occupation, etc. It seems that everyone on this planet has an opinion about the Palestinians, ranging from the aboriginals to the polar wildernesses. The opinion usually connects to the narrative of a conquered people, robbed by a cruel conqueror that stole its land and crushed its hope. But is this really so, is that the real truth? Or is it a worldwide years-long campaign that is ingeniously conducted in order to achieve a different objective and the Palestinians are, in fact, victims but they are their own victims, victims of an Arab policy which has a different objective and the Palestinians, in fact, are only a tool. A tool that has already lost its value and therefore it is of no use today. Only a few years ago the dominant conception was that in fact there is a conflict in the Middle East that overshadows world peace and that the origin of the conflict is between the State of Israel, the occupying power, and the burglarized Palestinians. This conception argued simply that the achievement of a just and sustainable peace will occur the moment a Palestinian state is established, and that a solution to the refugee problem will lead to a Spring of Nations and to global harmony. This is a conception that has been dominant in the world for decades. Many leaders have visited the region. The USA, the EU, the Turks, the Russians, everybody mixed in and they all wanted to...
