MEDICAL DATA MANAGEMENT AND WEB BASED ACCESS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Basics,Concepts,Methods | Over the few years the amount of medical data produced and gathered in a clinical environment has increased significantly due to the increased number of examinations and the use of new imaging techniques. This increased volume of medical data makes their management and access difficult, both for small and large medical centers. There is increasing demand of efficient technology to undertake more and better evaluations of its practicality, value and afford ability This book is an attempt to provide an integrated system for medical data management and web based access module. The book aims to use web based technology with medical database of patient .The data from imaging modality stored in database management module along with demographic data .A web application has been suggested in order to have web access of this data through Internet Information Server [IIS] Server. This analysis should help shed some light on this new technological environment for efficient database management and especially useful to the Biomedical engineering, Computer and Information technology students and professionals. | Format: Paperback | Language/Sprache: english | 80 pp.
