MONOMIAL (1,0,-1) - MATRICES - (4X4)

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Part 2 Application to the Rotation in Space | A special mathematical apparatus for monomial (1,0,-1)-matrices-(4x4) is applied to the description of kinematics and kinetics of rotation in space of an asymmetric rigid body about a fixed point. Using matrix representations for vector operations, Rodrigues vector formula is converted to concise, ordered record in quaternionic matrices. Using transposition operations, forward and indirect coordinate transformations' matrices when rotating in space are represented by...
