

Information and Communication Technologies in the Health Sector: Opportunities and Challenges for the Reduction of Inequalities in Latin America and the Caribbean

By United Nations

United Nations. Paperback. Book Condition: new. BRAND NEW, Information and Communication Technologies in the Health Sector: Opportunities and Challenges for the Reduction of Inequalities in Latin America and the Caribbean, United Nations, This document starts by identifying and describing the several benefits expected as a result of incorporating ICTs in health and goes on to summarize present and future challenges for health policies, especially inasmuch as the most vulnerable populations are concerned. Thirdly, the document showcases global progress made in several applications, strategies implemented and difficulties faced in some developed and LAC countries. The document finishes with generic proposals for the formulation of policies and strategies to be considered and adapted by countries throughout the region.

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
