TIME AND THE MULTIVERSE: SELECTED WRITINGS ON NOVEL PHYSICAL THEORIES (PAPERBACK)

[DOWNLOAD](#)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Quantum mechanics is the foundation of the universe. At the bedrock of quantum mechanics lies mathematics--the path-integral formulation. In this text, a variety of novel theories pertaining to quantum mechanics, and the mathematical foundations of theoretical physics, are surveyed. After the publication of his previous book, *Physics Reforged*, concerning his multiverse theory, Julian von Abele has returned to expand on his multiverse hypothesis, and present his novel theory of time. Is time multidimensional? Is reality plural, or whole? How did the universe begin, and how will it end? Do alternate realities exist? All these questions, and more, are answered in this remarkable anthology of academic papers on quantum theory, cosmology, and novel theories of time. Intended primarily for physicists and mathematicians, this book offers an intriguing gateway into some of the most fundamental problems of physics.
