Forgotten Books, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: French . Brand New Book ***** Print on Demand *****.Excerpt from *Simplicite: A Reader Of French Pronunciation* In the present book an attempt is made to assist the teacher in solving the perplexing difficulty of teaching French pronunciation in as brief a time as possible. For this purpose carefully graded exercises have been arranged, each exercise dealing with only one difficulty at a time. Model sentences of simple construction have been grouped around each sound so as to produce by repetition a maximum of practice in a minimum of space. The first exercise can be read with ease by a beginner, the second introduces only one new difficulty, the third another, and so on until in the fifty lessons all the sounds and combinations of sounds have been given. This enables a student to fix his attention on the one sound he is study-ing, without being distracted by a large number of rules and exceptions, while the constant review in each lesson of sounds already studied keeps a firm hold on the knowledge acquired. The principle on which these exercises are based is therefore exceedingly simple. By concentrating the attention on one sound and by constant repetition, the organs of speech acquire that dexterity and readiness in forming sounds, so essential to smooth and rapid reading. By repetition also the sound becomes associated with the symbol, and this is of the greatest assistance, not only in writing from dictation but in understanding the spoken French.
