THE POWER OF INTEGRATED LEARNING: HIGHER EDUCATION FOR SUCCESS IN LIFE, WORK, AND SOCIETY (HARDBACK)

Stylus Publishing, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. Students and their parents wonder if college is worth the investment. Employers want graduates with the skills they need. The public wonders if higher education is preparing future generations for an era of dynamic change. In his latest book, William Sullivan offers a model of higher education that answers all these questions in the affirmative, through the power of integrated learning. Drawing on examples from the 25 members of the New American Colleges Universities (NACU) consortium, the book makes the case for an approach that combines the strengths of the liberal arts, professional studies, and civic responsibility in order to give students the combination of skills and experience that will prepare them for success in all aspects of life after graduation. NACU campuses place emphasis upon enabling their students to know themselves and their abilities, as well as providing them with opportunities to develop a sophisticated understanding of the world. To achieve these goals, the academic programs focus on developing students intellectual and practical skills, such as analytical ability, problem solving, facility in written and spoken communication, and an appreciation for human diversity and creativity. These have traditionally been identified as the goals of a liberal arts education, and are the same ones identified in a national employer survey as giving job-seekers an edge. These institutions also invest a great deal of effort to provide their students with state-of-the-art preparation for professional life and occupational success in diverse fields. These range from the technical - science and technology fields, with disciplines such as engineering and computer science - through business, and across the human service fields, such as education, nursing, pre-medicine, and pre-law, to architecture, and the performing and visual arts. In these courses of study, students begin...
