CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 78 pages. Dimensions: 8.0in. x 5.2in. x 0.2in. The conclusions drawn by analyzing statistics from college and professional football often do not translate to the high school game because the games are so different. This book puts those powerful statistical techniques for maximizing a team's chance of winning into the hands of high school coaches and fans. These techniques are illustrated using the Pulaski Academy Bruins as a case study. Techniques such as Expected Point Value and Points Per Possession analysis are demonstrated with examples. The authors explore the utility of onside kicks, 4th down decision making, and two point conversion attempts. In addition, the book touches on the aspects of game theory as it relates to the opponents' psychological state. This item ships from La Vergne, TN. Paperback.
