VEDIC MATHEMATICS FOR SCHOOLS, BOOK 1 (THE CURIOUS HATS OF MAGICAL MATHS)

Motilal Banarsidass Publishers Pvt. Ltd., 2015. Hardcover. Condition: New. First edition. The Curious Hats of Magical Maths is an introductory workbook on Vedic Mathematics. It leads you into unique, enjoyable and very quick methods of working with numbers. There are full descriptions of these methods together with worked examples for you to follow and plenty of practice exercises. This is a workbook and you can write your answers into the spaces provided. You will find the answers at the back of the book to check your work. The problems and methods are suitable for any age but probably most apt. The aim is to introduce some of the Vedic mathematical techniques and not to cover the whole of the mathematics syllabus for 11-13 yearolds. So the book can be used for support material, extension material or simply by those wishing to find fast techniques for solving problems. This book is designed for young and old who might enjoy learning and practising the Vedic methods of Mathematics. Vedic mathematics is unconventional and not very well known and so readers are invited to be open-minded in their approach. The system uses the nature of number and natural mental processes to provide quick and easy methods for all sorts of calculations. Many difficultlooking problems can be solved at lightning speed with the answer coming digit-by-digit and without stress or anxiety. When practised the methods give great delight and a sense of the magical quality of numbers. The amazing simplicity and wonderment of obtaining the answers so easily has led some to ask, is this maths or magic? The answer is that it is magic until you have understood how it works and thereafter it is both maths and magic. This system of Vedic Mathematics was constructed from ancient Vedic sources by Bharati Krsna...
