By Daniel Heller

Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The Skies Don t Care breaks away from the world as we wish it to be and presents instead an airy realm of wonder and mystery that most people can t see-the world as it is. Revealed through the author s dreams, poems and narrative essays, this kingdom of reality will release the reader from any and all responsibilities he feels for his denial of a beautiful darkness that exists around him: the earth, the trees, the birds and the sea of abortions floating in the pool of his own backyard. The reader is free to dive into these muddy waters glistening with bloody adventures through Arizona, Texas, Bali, and the depths of the author s subconscious mind. In the end, be warned, after taking the plunge into these moonlit tales of poetic miscarriages, one will feel an immediate release of cosmic gravity, an elation into the atmosphere of midnight, to ascend in time beyond modern citadels into the carefree clouds of dawn.
