Zidane Press, United Kingdom, 2009. Paperback. Condition: New. Language: English . Brand New Book. Parallel to Kemp s interest in contemporary science, one of his most consistent themes is the historical exploration of the possibilities of perceived and represented structures and patterns as organisational imperatives in nature and cognition. Structures in the context of Kemp s writing not only relate to the privileged observation sites of modern science but also act as instruments for an art history of contextually examined yet philosophically approached continuities.
