Brand New Book ***** Print on Demand *****.The Chronicles of Humanity s Future - Part 2 The Forsaken Exodus - a grim name for a bright beacon of hope in a galaxy of madness and darkness. The Forsaken Exodus had its origins in one of the original Industria worlds, so named since they provided men, materials and the sinews of government, civilization and war in a far corner of the ever-shifting front lines of a galactic war and mortal struggle between humanity, and its two main counterparts. In essence, Industria world Graius was a home away from home, another earth in a system that a natural ordinary human would never be able to reach in his lifetime. Yet - there had to be lessons learnt. The Exodus March fleet, as was its proper name, had two missions; to rebuild, and to learn from the mistakes of the past and lay down a better way for humanity as the Prime species of the future.
