Peter E. Randall Publisher, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book. A companion work to Flatland (Sayre/Emberley, 2014), the Dialogues offer meaning, comfort, and direction to a world at risk of losing its faith. From the latest science and our places of greatest striving, an expert on the reduction of entropy offers a reality that is rational, faithful, and hopeful. The inventor of chirp FM radio and a standard energy-saving contract, Sayre has formed a dozen companies around the sciences of communication, rehabilitation, and energy. These have made him expert in reducing entropy, the measure of both decay and ignorance--and that is how scientists would detect intelligent life, anywhere in the universe.
