

## Belief and Unbelief in Medieval Europe (Paperback)

By John H. Arnold

Bloomsbury Publishing PLC, United Kingdom, 2005. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Religion in medieval Europe was hugely important, and impinged upon the most mundane transactions and everyday experiences. But was the period a uniform Age of Faith ? By focussing on the ordinary laity, this fascinating account unlocks the multiple meanings of religion, asking how it functioned and with what effects. Holiness, piety and belief are explained and contextualized, as are heresy, dissent and superstition. The themes explored include religious acculturation, community, intercession and Christian identity as well as occasions of unbelief and lay people s rejection of the Church s message. This study deftly uncovers the meanings and struggles that lay below the smooth surface of medieval religious observance for the modern reader.
