

Rethinking Culture: Embodied Cognition and the Origin of Culture in Organizations (Hardback)

By David Gordon White

Taylor Francis Ltd, United Kingdom, 2017. Hardback. Condition: New. Language: English . Brand New Book. Organizational or corporate `culture is the most overused and least understood word in business, if not society. While the topic has been an object of keen academic interest for nearly half a century, theorists and practitioners still struggle with the most basic questions: What is organizational culture? Can it be measured? Is it a dependent or independent variable? Is it causal in organizational performance, and, if so, how? Paradoxically, managers and practitioners ascribe cultural explanations for much of what constitutes organizational behavior in organizations, and, moreover, believe culture can be engineered to their own designs for positive business outcomes. What explains this divide between research and practice? While much academic research on culture is challenged by ontological, epistemic and ethical difficulties, there is little empirical evidence to show culture can be deliberately shaped beyond espoused values. The gap between research and practice can be explained by one simple reason: the science and practice of culture has yet to catch up to managerial intuition. Managers are correct in suspecting culture is a powerful normative force, but, until now, current theory and research is not able to adequately...

Reviews

It is an awesome pdf i have possibly go through. It really is filled with wisdom and knowledge You will not really feel monotony at whenever you want of your time (that's what catalogues are for relating to in the event you ask me).

-- **Horace Schroeder**

This book is definitely not effortless to start on reading through but extremely fun to learn. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
