Roentgen rays is knowledge of their physical properties and the effect they are capable of producing on organic tissue. Without any knowledge of this most important part of the subject, the art of skiagraphy becomes amateurish guesswork, the science of X-ray therapy a conglomerate of empirical notions. There can be no progress without logical elaboration of the principles that underlie the work we attempt to do and the technique we adopt. Sit modus in rebus I PART II. The Practice of Physiological Therapeutics. THERAPEUTIC INDEX. Alcoholism.--The acute form can be successfully handled in the dry-heat cylinder. Flushing out the stomach and irrigation of the colon should precede the treatment. Chronic alcoholism requires isolation, abstinence, active elimination through the skin and bowels and stimulating (hydro-therapeutic or electrical) applications to the lower extremities. Suggestive influence, hygienic surroundings, a vegetable diet are indicated. Symptoms of...
