

Environmentalism Gone Mad (Paperback)

By Alan Carlin

Stairway Press, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Dr. Alan Carlin is an economist and physical scientist with degrees from Caltech and MIT and publications in both economics and climate/energy, who became actively involved in the environmental movement in the 1960s. This led to an almost 39 year career as a manager and senior analyst at the U.S. Environmental Protection Agency. In the mid-2000s he began researching the claims by the environmental movement and the UN that the release of carbon dioxide by modern civilization will lead to catastrophic global warming. This book is an account of his personal journey of discovery. In Environmentalism Gone Mad, Dr. Carlin documents the dysfunction of the modern environmental movement-demonstrating the need of a major course correction to steer it back to reality.
