Createspace, United States, 2014. Paperback. Book Condition: New. 235 x 190 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Review via email from Earle Holder, award winning Mastering Engineer at HDQTRZ Mastering Studios, Mastering Engineer for Public Enemy, and creator of the Har-Bal Harmonic Equaliser: Hello David I have always believed that one is never too old to learn something new. I purchased your material because it appeared that you have a real passion for your craft as do I. I thought your tutorials were well written and easily understood. The area that I read where you stated that you were mastering a project for an individual over a three year period was priceless. I was easily able to relate to your dilemma of constantly improving your craft and the need to go back and redo the previous masters because you were constantly learning and becoming more proficient. There is plenty of business to go around so I support my fellow mastering engineers who appear to be honorable. Both of your books were a breath of fresh air and I will be sure to tell others who are getting started in this wonderful field to purchase your books. After reading your books and...
