Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Dreams, Messages From Your Mind? is a friendly and fun discussion between the author and the reader on the very fascinating subject of dreams. The author believes and emphatically states there is nothing so scientific about dreams that dreamers cannot themselves easily find meaning and understanding to their dreams. We sometimes resort to professionals to analyze and give us meaningful and hopefully reasonable conclusions to our dreams but are often disappointed with the results. We erroneously accept their findings as the indisputable interpretation of our dreams even though their evaluations may often be above the level of average and normal comprehension. You and I need not be a psychoanalyst or professional of sorts to interpret and or bring some sense of meaning to our dreams, because dreams belong to the domain of dreamers and they are personal to the individual that is dreaming. In essence dreams may be the recollections of his or her thoughts, of times past, desires of the heart and mind, or of thoughts of the moment, or possibly an event yet to happen in the future.
