This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. For the first time, Pediatric Clinics is devoting one issue to two clinically focused topics: Pediatric Palliative Care and Pediatric Hospital Medicine. Dr. Ottolini has organized her section to focus on a variety of issues of relevant to all pediatricians, but which pose special challenge to the Pediatric Hospitalists. As pediatric care has advanced, children who would not have survived infancy are growing into young adults with complex chronic diseases and dependence upon technology. They frequently require hospitalization to address exacerbation of underlying disease processes and procedures to improve their quality of life. The articles are devoted to patient care challenges of troubleshooting malfunctioning technology, co-managing medically complex patients pre and post-op with surgical colleagues, and the Hospitalist s evolving role in performing procedures and sedation in this population of vulnerable patients. Also discussed rare strategies to maximize communication with parents, patients and primary care providers during hospitalization, especially for medically complex patients. Dr. Ullrich and Dr. Wolfe Pediatric have worked...
