Excerpt from The Castration of Cryptorchid Horses and the Ovariectomy of Troublesome Mares Until recent years operations involving the interior of the abdomen have been considered to be accompanied by the gravest risks, and the percentage of fatalities used, indeed, to justify this assumption. Now days, however, thanks to the researches of Pasteur and their adaptation by Lister to modern surgery, the introduction of antiseptic methods have altered all that, and the surgery of the abdomen has taken its proper place with that of any other part of the body.
