

## Near and Far at the Park: Describe and Compare Measurable Attributes

---

By Madeline Weaver

Rosen Classroom, United States, 2013. Paperback. Book Condition: New. 198 x 196 mm. Language: English . Brand New Book. Working with measurements and data is an essential skill for all math students. Readers are introduced to concepts like describing and comparing measurable attributes and sorting objects into categories. Each skill is explained with the help of accessible text and bright images. A visit to the park provides a fun context for readers to practice comparing distances. This text reflects standard K.MD.A.2 of the Common Core State Standards for Mathematics.

### Reviews

*Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.*
