## NOTES ON THE MANUFACTURE OF SUGAR IN THE ISLAND OF CUBA (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Notes on the Manufacture of Sugar in the Island of Cuba Some used 1 lb. Of powdered slaked lime to every 690 gallons of cane juice, others the same quantity of lime to every 450 gallons; again others half a gallon of milk of caustic lime (which weighed directly after being stirred up 15 Baum at 20 Gels.) to every 450 gallons. The quantity of lime is somewhat increased every where during the progress of the season. One planter stated that in some instances, particularly towards the close of the sugar campaign, and after a dry season and where the cane has been raised on sandy soil, 100 gallons of cane juice had required 2 oz. Of caustic lime to neutralize the free acid present; and that he had also used to apply 1 lb. Of caustic lime to every 150 to 175 gallons of cane juice even under ordinary circumstances. Some add the caustic lime at 40° to 50° Cels., others at 60° to 65° Cels. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
