This document focuses on the Department of Defense's (DOD) kinetic energy anti-satellite (KE-ASAT) program. GAO found the program is in a state of disarray. Problem areas include funding, limited management, and poor record keeping. The Assistant Secretary of Defense for Command, Control, Communications and Intelligence had recommended that DOD complete the existing contracts, place the weapon system in storage, and pursue no further development of the program. If DOD decides to continue the program, however, considerable work will be needed to make the system ready for operational testing. Furthermore, DOD will need to strengthen its internal and financial controls to ensure that government resources are used in compliance with government regulations. This item ships from La Vergne, TN. Paperback.
