

## Cardiovascular Disease: Diet, Nutrition and Emerging Risk Factors (Paperback)

By -

John Wiley and Sons Ltd, United Kingdom, 2005. Paperback. Condition: New. Language: English . Brand New Book. This important and timely book comprises the comprehensive and authoritative independent report of the British Nutrition Foundation Task Force on the link between emerging aspects of diet and cardiovascular disease, a major cause of early death and disability. Written by leading experts in the area, Cardiovascular Disease: Diet, Nutrition and Emerging Risk Factors looks further than the well recognised factors, such as high blood cholesterol and smoking to identify and explore more subtle markers of risk. Chapters include coverage of novel lipid factors, vascular function, clotting factors, inflammatory factors, oxidative stress and homocysteine and early origins of adult disease. The impact of obesity, insulin resistance, genetic predisposition and factors related to adipose tissue are also addressed. Of vital use to a wide range of health professionals, this cutting-edge book provides the reader with: core information for health professionals, as well as those involved in food formulation in the food industry; a dedicated question and answer chapter; and important conclusions and recommendations with take-home messages . Dietitians, nutritionists, general and family practitioners, cardiologists, cardiovascular specialists, community nurses, personnel in the food industry involved in...
